

OVERVIEW

The PolarStand™ by DuraPlas is a patent-pending adjustable HVAC stand engineered to elevate and support heat pumps, condensers, air handlers and furnaces. Its three-piece expandable design adjusts from 24 to 40 inches wide, installs easily with one person. Each PolarStand set comes with two (2) PolarStands and can function as a riser within the PolarPan system.

SPECIFICATIONS

- Universal Hardware Mounting
- Weather, Temperature, & UV Resistant
- Vibration Dampening
- Promotes Air Circulation
- Resists Cracking, Breaking, and Warping
- Oil & Refrigerant Resistant

FEATURES

- **Universal Hardware Mounting** includes two options, hex bolts for equipment with mounting holes and winged bolts for equipment with slotted feet.
- **6 Inch Elevation** helps protect equipment from freeze damage while promoting air circulation beneath the unit.
- **Lightweight, Easy Installation** allows for convenient pre-installation and one-person setup without additional equipment.
- **Engineered for Strength and Durability** with resistance to impact, cracking, and warping.
